# Arduino IDE change theme settings

to change Arduino IDE settings edit file:

```
....\arduino-1.8.5\lib\theme\theme.txt
```

by example change console text color

```
# GUI - CONSOLE
console.font = Monospaced,plain,14
console.font.macosex = Monaco,plain,14
console.color = #ffffff
#console.output.color = #eeeeee
#console.error.color = #E34C00
console.output.color = #000000
console.error.color = #FF0000
```
